

The M-iClean range has the distinctive look and feel of a new generation of commercial dishwashers. Created to appeal to all our senses, they stem from a genuine affinity for technology, efficiency, eco-friendliness and beautiful design. Dishwashing has never been so cost-effective, environmentally-friendly, or appealing to the eye. With so many options in Meiko's warewashing range it can be difficult to know where to begin, that's why we've compiled this comprehensive list of the model options within the M-iClean range to empower you to make the best decision for your establishment. If you should require any further help or assistance, please don't hesitate to pick up the phone and contact a member of our sales team on **01229480001**.

- M-iClean US

The small commercial dishwasher M-iClean US offers intuitive operation and the "green heart" of eco-friendly dishwashing, and it fits perfectly under most bars and counters. This commercial dishwasher is a popular choice in both the hotel and restaurant trade, producing hygienically clean dishware and cutlery and sparkling clean glasses without requiring hand polishing.

The M-iClean US commercial dishwasher with optional GiO module offers brilliant washing results, less glassware breakage, and no need to polish glasses by hand. That's the beauty of cleaning!

- M-iClean UM

When things get busy and your hands are full, you only have to glance at the M-iClean's special LED handle to get an update on the machine's current status. Its ergonomic touch display serves as an illuminated control centre for your commercial glass dishwasher for bars, offering user-friendly, one-touch operation. Warewashing technology at its most efficient – from MEIKO.

The bar dishwasher from the M-iClean range features the M-iClean AirConcept system which cuts the use of energy – a valuable and expensive resource – by up to 15 % while simultaneously improving the quality of the indoor air.

This attractively designed machine offers intuitive operation and a more pleasant working environment, as well as perfectly clean, sparkling results. The M-iClean UM glass washer really is a beautifully versatile solution.

- M-iClean UM+

That makes this glass washer a great choice for bulkier items of washware such as large trays. With a smart sensor system monitoring every aspect of the machine's operation, it couldn't be easier to get things clean with the M-iClean UM+ glass washing machine.

The optional GiO module optimises the machine's performance, making it even more efficient and economical. It also eliminates the need to polish glassware by hand, which means far less glassware breakage! That's a key payback on any investment in a dishwasher.

- M-iClean UL

The M-iClean UM+ glass washing machine offers an extra-large entry height of 435 mm.

That makes this glass washer a great choice for bulkier items of washware such as large trays. With a smart sensor system monitoring every aspect of the machine's operation, it couldn't be easier to get things clean with the M-iClean UM+ glass washing machine.

The optional GiO module optimises the machine's performance, making it even more efficient and economical. It also eliminates the need to polish glassware by hand, which means far less glassware breakage! That's a key payback on any investment in a dishwasher.
