## OIL FILTRATION PAYBACK ANALYSIS

### Oil cost without filtration

Fryer capacity   litres x Number of fryers   =  litres

Oil life  7 days / into 365 =  52 oil changes/year

Oil use  litres x  changes/year =  litres/year

Oil cost £   per litre x  litres/year = £

### Oil cost with filtration (at least double oil life)

Fryer capacity  litres x Number of fryers  =  litres

Oil life  10 days / into 365 =  37 oil changes/year

Oil use  litres x  changes/year =  litres/year

Oil cost £  per litre x  litres/year = £

### Annual savings

Oil cost without filtration £

Oil cost with filtration £

Savings in oil cost/year £
