

Exceptionally high performance combined with cost efficiency

Obtain great results and improve your laundry's efficiency by minimizing running costs with Electrolux tumble dryers.

Accurate temperature control

Extensive laboratory tests show that Electrolux tumble dryers provide shorter and more efficient drying cycles thanks to their accurate temperature control.

Residual Moisture Control

RMC measures the exact moisture content in the linen and automatically helps you to save time, energy and money. It is a must for delicate fabrics like wool and silk.

Advanced blower wheel

With our new generation blower wheels it is possible to optimize airflow and minimize maintenance costs.

Reverse drum action

The counter-clockwise drum rotation prevents linen from tangling and wrinkling, thus improving drying efficiency and making finishing easier.

Certus Management Information System™ (CMIS)

Innovative software from Electrolux that allows you to connect machines to a network to monitor all operating costs and program & consumption data - validating every processed batch.

Safety & Standards

Electrolux tumble dryers comply with all International safety standards and product quality specifications for your complete peace of mind.
