

FK/8

Keg coolers | *without machine unit*

(in combination with FK/MU or FK/MUP)

Specifications

The keg cooler is supplied “flat pack” and can be assembled in minutes in some of the most inaccessible sites. The reinforced bottom is made from Stainless Steel (AISI 304, 18/10) and has on 3 sides a moulded edge. The keg cooler is also very suitable for cooling beverages in crates. The keg cooler has different standard features like automatic defrosting, digital electronic thermostat and temperature regulation. Silver coloured skin plate is used for the interior of the keg cooler. For the exterior anthracite coloured skin plate is used.
