

Catersafe Services Ltd.

Catersafe services - catering equipment maintenance services with Gas Safe registered catering engineers. Covering installation, servicing and repairs on commercial kitchen and bar equipment.

Craig from Catersafe Services Ltd

"After being let down by a large supplier I placed an order with Ugne at Caterkwik for next day delivery. The appliance turned up on time much to the gratitude of myself and my customer. I continued using Caterkwik for all my equipment orders from that point and they haven't let us down once. Excellent customer service and extremely competitive prices. I'd highly recommend Caterkwik to anyone purchasing catering appliances."
