

191 G

CLASSIC

Single flavor counter top gravity fed machine to produce soft ice cream and frozen yogurt.
A must have

Top quality components for great results

High versatility

Give free space to your imagination and create cups as well as new soft delights and single portions

A cool look

The machine can be adapted to all types of shop thanks to its new modern panel

Electronic consistency control

Modify the consistency settings to adapt to all mix types

The above dimensions refer to the air cooled version. Water cooled model is without rear chimney

Optional configurations

Self-pasteurization

With our self-pasteurization system the machine can be cleaned and disassembled only 9 times per year

Teorema Remote Control

It gives very important info about the machine, it facilitates the service system and helps the cleaning schedule

Single portions dispensing head

With interchangeable nozzles to make single portions and delights

Self closing device

The dispenser closes automatically stopping the flow of ice cream, eliminating any waste and preventing mess

Only You

Customize your machine with your colours and logo

Wash Kit

Optional tap above the tank to facilitate the cleaning operations

* production capacity depends on the mix used and the room temperature

** other voltages and cycles available upon request

Features

Gravity fed system

Interactive display

Tank agitator

Tank rubber lid

POM beater

Adjustable ice cream flow

Direct expansion cooling cylinder

Defrost system

Rear panel chimney (air cooled version)

Benefits

Control valves naturally add air to the mix producing a firm and dry ice cream having an overrun up to 40%

Communicates with the operator delivering instructions and data regarding machine performance

Prevents product stratification and helps to reduce foam by maintaining a fluid consistency

Light and handy. It facilitates the cleaning and filling operations

One piece POM beater, easy to clean, for a firm and dry product. Ideal for frozen yogurt

Adjustable product flow to meet your specific dispensing speed and volume requirements

Optimizes refrigeration efficiency for fast freeze downtime, less waste of product ensuring higher quality and energy saving

Possibility to heat the cylinder to simplify the cleaning procedure

Allows to optimize space and to place machines next to each other
