 Plug-in induction Griddle,  
 stainless steel smooth plate  
 - UK plug

### Short Form Specification

#### Item No.

Plug-in 1 Phase table top mono zone induction Griddle constructed with 4 sides unique frame in AISI 304 2 mm thick. Non-stick smooth cooking plate (11 mm thick) is a compound of aluminium and AISI 436 stainless steel, for outstanding cooking uniformity. Integrated splash guard and grease collection drawer with 0,5 lt capacity. Glass touch display on top for maximum visibility with temperature setting (60 - 280°C). 2-color user interface (white and red) for better readability. Lock function stops your settings to be accidentally modified during working. Hot surface warning to prevent injuries. Cleaning function to set directly the right cooking surface temperature to activate Electrolux Professional rapid grease detergent. 4 feet, cord and UK plug included. IPx4 water protection. Designed for LiberoPro Duo function for automatic regulation of the LiberoPro Point fan speed according to cooking intensity.

### Main Features

- Plug in unit designed for table top installations.
- 2-color user interface (white and red) for better readability.
- Outstanding cooking evenness and fast recovery time.
- Energy efficiency guaranteed by induction technology.
- Non-stick cooking plate.
- Glass touch display on top for maximum visibility with temperature indication.
