727633 (ESP71FRCA) 1-door Refrigerator 670lt, -2+10°C (R290), digital, AISI 304, Class A

# **Short Form Specification**

### Item No.

Full door refrigerator entirely constructed in 304 AISI stainless steel with bottom panel in anti-corrosive material. Digital display to allow: cabinet temperature indication; selection among 5 preset and 2 programmable food categories to set appropriate temperature to the type of food stored; HACCP history for critical high temperature, alarm service; Frost Watch Control 4 to defrost only when required with automatic evaporation of defrost water; probe failure indication and diagnostic. Optiflow: back to front forced air flow and removable air conveyors provides even temperature distribution and fast cooling in any conditions. Fitted with 90 mm-thick cyclopentane insulating foam. On-site reversible door features lock and door microswitch to switch off the fan when the door is opened. Hidden evaporator to guarantee higher storage capacity and less corrosion problems. Built-in refrigeration uni tand internal LED light. For ambient temperatures up to 43 °C. CFC and HCFC free. R290 gas in refrigeration circuit. Supplied with n. 4x2/1GN Rilsan coated arids and n. 4 sets of 2 stainless steel grid runners. Certified as Class A (in accordance with EU Regulation 2015/1094. Prearranged to fit RS485 port to facilitate connection to a remote computer and integrated HACCP systems.

#### **Main Features**

- Large storage area suitable to contain 2/1 GN grids or shelves on anti-tilt runners.
- Optiflow: back to front forced air flow and removable air conveyors provide even temperature distribution and fast cooling in any conditions.
- Operating temperature can be adjusted from -2 to +10 °C to suit different food storage requirements.
- 60 mm-thick insulation covering the evaporator can be easily removed with a single operation.
- Connectivity ready for real time access to connected appliances from remote and data monitoring (requires optional accessory).
- Prearranged to fit RS485 port to facilitate connection to a remote computer and integrated HACCP systems.
- Rilsan coated grids for improved protection.
- Cabinet fitted with up to 90 mm thickness of cyclopentane insulation for best insulating performance with 100% environmental protection (thermal conductivity: 0,020 W/m\*K).
- Tropicalized unit (43°C ambient temperature).
- Performance guaranteed at ambient temperatures of +40°C (Climatic class 5).
- Large digital white-digit display with cabinet temperature display and setting, activation of turbo frost cycle (to rapidly cool warm loads) and possibility to activate manually the defrost cycle.
- Internal structure with 44 charging positions available to host grids, ensuring higher net capacity and a greater storage space.
- Possibility to select 3 different levels of humidity according with the type of food stored inside.

#### Construction

- Constructed from the highest quality AISI 304 Stainless steel.
- Interior base with rounded corners, pressed from a single sheet.
- The rounded internal corners, the easily removable runners, grids and air conveyors allow for ease of cleaning and high hygiene standards.
- Stainless steel runners and supports easily disassembled.
- Anti-corrosion bottom avoids any damage that may be caused to the cabinet by aggressive detergents employed to clean the floors.
- Easy access to the main components for maintenance.
- Lockable door.

#### Sustainability

- Removable triple-chamber balloon magnetic gasket to improve insulation and reduce energy consumption and ease of cleaning.
- CFC and HCFC free, highly ecological refrigerant type: R290 (ecological gas in foam: cyclopentane).
   Hydrocarbon refrigerant gas R290 for the lowest environmental impact (GWP=3), to reduce green house and ozone depletion effects.
- CFC and HCFC-free insulation.

- Automatic evaporation of the defrosting water by hot gas on the top for energy saving.
- R290 refrigerant to reduce green house and ozone depletion effects.
- Cleaning-free condenser: the structure of the wire frame condenser prevents dust and grease accumulation thus avoiding periodical cleaning operations and reducing energy consumption.
- Interior LED light to save energy and for best internal visibility.
- Door switch stops the fan when door is opened to avoid cold air exiting the cell, thus saving energy.
- Improved defrost and evaporator fan management defrost type changes with temperature set-point: electric below +2° C while air convection defrost above +2°C, thus saving energy.
- Frost Watch Control: fully automatic defrost starts only when ice is actually building-up in the evaporator and adapt the defrosting duration to guarantee perfect ice removal while optimizing energy efficiency consumption.
- Cabinet certified as Class A in heavy duty working conditions (40°C-40% humidity) based on European Ecodesign directive.
- The label complies with the delegated regulation (UE) 2015/1094 of the commission of 5th may 2015.

#### **Included Accessories**

• 4 of 2/1GN grey rilsan grid with 2 PNC 881020 runners

## Optional Accessories

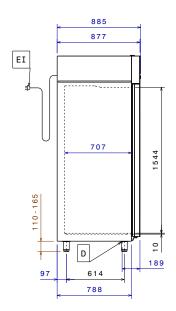

h=150mm

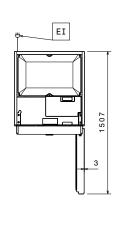

Optional Accessories			
• 2 stainless steel runners for refrigerated cabinets - (Marine)	PNC 880242		
• Set of 8 GN1/1 PVC containers for fish	PNC 880243		
<ul> <li>Spacer for 670 It and 1430 It refrigerated cabinets</li> </ul>	PNC 880248		
<ul> <li>Pedal opening for cabinets</li> </ul>	PNC 880324		
<ul> <li>1/1GN plastic container with false bottom</li> </ul>	PNC 880705		
<ul> <li>4 swivelling wheels (2 with brake), diam 125 mm, for refrigerators, NOT for remote models</li> </ul>	PNC 881002		
<ul> <li>Kit of 10 pairs of runners and 4 tray supports to fit pastry trays (400x600mm)</li> </ul>	PNC 881003		
• 2/1GN grey rilsan grid	PNC 881004		
<ul> <li>2/1GN aisi 304 stainless steel grid</li> </ul>	PNC 881016		
• 2/1GN 304 AISI stainless steel grid with 2 runners	PNC 881018		
<ul> <li>Meat rail for 670/1430lt refrigerators with 4 hooks</li> </ul>	PNC 881019		
<ul> <li>Set of 2 stainless steel runners for 670/1430lt refrigerators and freezers</li> </ul>	PNC 881021		
• 2/1GN pvc container with lid and 2 runners	PNC 881039		
• 2/1GN perforated shelf	PNC 881042		
• 1/1GN rilsan steel wire basket h=150mm	PNC 881043		
• 2/1GN grey rilsan basket+2 runners	PNC 881047

**EU energy labelling from 1st July 2016** The European energy labelling scheme for professional

The European energy labelling scheme for professional refrigerators and freezers is based on requirements setting Minimum Energy Performance standards for commercial refrigeration cabinets sold within the EU. These requirements are designed to drive energy efficiency and environmentally friendly approach for professionals. The European energy labelling scheme will apply to all manufacturers and importers who sell and market products within the EU and it is mandatory across Europe. Important: all products which consume energy above the minimum level will not be able to be sold within the EU from 1 July 2016.

SI 2020 No. 1528.

Important: all products which consume energy above the minimum level will not be able to be sold within the EU from 1 July 2016.
