WARNING!

All ARCHWAY catering products are CE and UKCA approved.

Gas appliances without this certificate may result in your business insurance being void in an event of a claim, as from 2021.

All items from abroad must be UKCA approved.

BSI: 0086

The letters 'CE' appear on many products that are traded on the single market in the European Economic Area (EEA).

The CE marking is required for many products. It:

- shows that the manufacturer has checked that these products meet EU safety, health or environmental requirements
- is an indicator of a product's compliance with EU legislation
- allows the free movement of products within the European market

By placing the CE marking on a product a manufacturer is declaring, on his sole responsibility, conformity with all of the legal requirements to achieve CE marking. The manufacturer is thus ensuring validity for that product to be sold throughout the EEA. This also applies to products made in third countries which are sold in the EEA and Turkey.

BSI: 0086

The UKCA (UK Conformity Assessed) marking is a new UK product marking that is used for goods being placed on the market in Great Britain (England, Wales and Scotland).

The UKCA marking came into effect on 1 January 2021.

The UK Declaration of Conformity is a document which must be drawn up for most products lawfully bearing a UKCA marking.

The UK Declaration of Conformity should be available to market surveillance authorities on request.
