| Required Electrical Supply | 32A |
| Electrical Current Split (amps) | L1: 10.14A L2: 10.14A L3: 10.14A |
| Element rating (kW) | 2.33 |
| Capacity (litres) | 12 |
| Weight (kg) | 62 |
| Packed Weight (kg) | 72 |

Installation notes

Adequate ventilation must be provided to supply sufficient fresh air for combustion and to allow easy removal of any such products that may present a risk to health. Please consult current legislation for details that relate to specific locations. Install unit on a level, fireproof surface in a well-lit, draught free position. If floor is made of a combustible material, local fire requirements must be checked to ensure compliance.

A clearance of 150mm should be observed between appliance and any combustible wall.
