G-10 espresso machine pre-install pack

G-10

Thank you for selecting the G10 from the Crem Expobar range of high quality traditional espresso machines.

To ensure that your new machine will give you years of trouble free service, then please take the time to ensure that all of the requirements within this information pack are followed and that the pre-installation check list is completed and returned.

We have combined our genuine experience of building first-class espresso machines with creative solutions and the latest innovative technology. Therefore, you can be sure that all G-10 machines deliver what they promise. That is, a perfectly brewed espresso to your customers every day, year after year.

Features

as standard, all models in the G-10 range have a large steam tank. The machines with a display are also equipped with an advanced piD sensor system so that the water always keeps an exact brewing temperature. The temperature is continuously monitored and is rapidly adjusted if it changes.
