

“Yet another great product delivered and organised by a great company From order to delivery I was always kept informed of the progress and the delivery was very fast. I will definitely be back for more. Falcon as a manufacturer have continually improved there range of products and their ranges are one of those products, I have seen these develop from the early days of the G1107 to the current models. Good machines and good service, what more can you ask for.  
Thanks guys.”
