

HIGH SPEED OVENS

Prática's speed ovens are ultra-fast, high-performing ovens used for preparing, and finishing, fresh, refrigerated, or frozen foods. Each use results in excellent appearance, crunchiness, and taste.

With cutting edge technology, the ovens work with multiple heat sources, such as, impinged hot air, microwave, and direct radiation. They are equipped with a ventless system through an easily removable catalytic converter and requires no extraction hood for operation, making it easy to clean and maintain.

With a friendly touch screen interface, Prática speed ovens have easy operation and quick preparations, are ideal for service with agility and quality.

Stop wasting food

Keep your products frozen or part-baked and make them fresh when your clients place the order or reheat them without compromising the quality

Ventless technology

No need for hoods

Any size of business

Prática's high-speed oven models fit small, medium, and large businesses

Flexibility

Increase the range of products you offer to your customers

Standardisation

Secures consistent results under continuous repetitive operation

Easy operation

Start cooking with just two touches

High-Speed

When your customers need something fast and easy to eat

Quality food

Good food at a fraction of the time
