

DESCRIPTION

Compact, all-in-one, Automatic. GELATO 6K CREA is the ice cream machine of the future!

Equipped with sophisticated software which manages the functions. In addition to the normal manual function, the operator has at his disposal:

4 Specific production programs (Gelato Classico - Semi-Soft Ice Cream - Granita – Shock freezing)

4 Specific storage programs selectable depending on the different needs and characteristics of the product.

These automatic programs, as well as ensuring the best results, make the machine completely autonomous, leaving the operator free to focus on other tasks.

An electronic inverter system for the control and regulation of the motor enables to vary the number of RMP of the blade (from 55 to 115 rpm) to achieve desired results.

The compact size allows you to place 6K CREA in every professional kitchen.

WARRANTY

Nemox Gelato Machines are backed by a one-year limited warranty against defects in material or workmanship.

On site warranty repair Included in year one.

IMPORTANT

Allow machine to rest in final position for 12 hours before using, this allows the gas to settle.

FEATURES

- 304 stainless steel blade with adjustable scrapers
- ABS Housing
- Air cooled
- 304 stainless steel inner bowl
- Large opening: Allows the addition of ingredients
- Optional: Paddle for Granita processing
- Drain system for easy cleaning
- Automatic management of production, density, storage and variable speed device.
- Magnetic safety device. When lid is lifted, the paddle stops automatically
- Timer and refrigeration switch
- Variable speed device: allows to control the overrun
