

Product Code: FS20 27-105

Air cooled standard Ice Cuber

Features & Benefits

FS20

- Innovatively designed with new user-friendly electro-mechanical controls to ensure reliability
- The models also incorporate a condenser thermostat, which ensures a full harvest of cubes
- Produces ultra cold square cubes that last longer in the glass, ice bucket and the machine's storage bin
- Uses as little as 5 litres of water to produce 1 kilo of ice - important where water is metered.
- The new flush system ensures clear ice free from impurities and eliminates the risk of lime-scale
- Legs provided as standard to increase height for drainage where required - 70mm maximum height increase
- Bin capacity: 6.5 kgs
- Ice: Cubed 35x37x32mm

External Finish

Stainless steel Standard

Electrical, Service & Ecodesign Data

230/50/1 Standard

Fuse Required 13

Internal Finish

N/A Standard

Specification

Dimensions (Width) 340

Dimensions (Height) 600

Dimensions (Depth) 480

Cube - 31 x 24 x 26mm Standard

20 Standard

Refrigeration

R134a - Industry Standard Standard

Drain Rqd 20mm

Integral Standard

Integral Refrigeration System Standard

Footnotes

- Output figures quoted are based on 10°C water input and ambient air temp of 21°C
- Dimensions: Legs provided as standard to increase height for drainage where required - 180cm maximum height increase
- A minimum clearance of 15cm (6") must be left at the sides of the machine for routing cooling air drawn into and exhausted out of the compartment to maintain a proper condensing operation
- Maximum ambient air temperature 40°C; maximum input water temperature 35°C
