

FLEXI+SERVE

P **PARRY**
Stainless Steel Products

Welcome to Parry

Contents

Parry is one of the UK's foremost manufacturers of high-quality Stainless Steel Fabricated Products with a 40-year heritage rooted in British craftsmanship.

At Parry, quality and service are second nature. Striving to exceed our customers' expectations is not just our motto; it's the very heartbeat of our business. Our commitment to our customers is reflected in the **Parry 4E Standard** stating that all our products are:

Easy to use

Easy to maintain

Easy to clean

Easy to repair

Our ranges of Stainless Steel Products have been specifically designed with the consumer in mind, all are tailored and compliant to your specific industry sector. Our products meet the Parry 4E Standard and also meet EU & UK regulations, where applicable. The Parry brand stands for quality, reliability and value.

ISO9001 certification, and continual investment in the training and development of our highly skilled, workforce means that our clients have genuine peace of mind that they are British built quality products.

We are LEAN manufacturers, minimising waste, maximising productivity. We are proud to run an operation that is committed to minimising our impact on the environment.

Our catering equipment and fabrications are manufactured in our 48,000 sq ft manufacturing facility in Draycott, Derbyshire. Products are made to order if not available in our stocked items which means you can choose from 600 products, offering over 3,500 variants, with short lead times to suit your specific needs. That means you get exactly what you need when you need it.

Our Environmental Policy and carbon reduction target form an integral part of our business plan and our approach to new product development.

We are conscious of the increasing need for environmental protection and the consumer's desire for this approach to manufacturing. We have now completed phase one of our Carbon reduction target by investing £190k into renewable energy at our manufacturing plant and 2021/22 will see further investment into reducing our carbon footprint in the supply chain.

We know at Parry that our activities and those of our employees influence the environment and it is therefore essential to us that we take steps to minimise the impact through positive actions.

Our product information can be found here, in our brochure or on our website www.parry.co.uk.

Should you have any questions please contact your distributor. Alternatively, our customer services team will be happy to help you on **01332 875544**.

Flexi-Serve Overview

Flexi-Serve is the exciting range of modular servery counters brought to you by Parry Catering Equipment that can be quickly and easily suited to create your ideal fixed or mobile servery counter. Available in a variety of model combinations of bases, tops and gantries to suit whatever fixed or mobile servery counter layout you require, each Flexi-Serve unit is available in a range of sizes ranging from 2 to 5GN. Supplied as standard at an ideal working height of 900mm, Flexi-Serve is also available at 800mm high for low level applications such as in primary and infant schools. Till, corner, condiment and clearing trolleys are also available and bespoke units are available on request.

Watch our Video Case Study at www.Parry.co.uk

Flexi-Serve: Mobile or Fixed

Flexibility

The perfect solution for both mobile and fixed installations, Flexi-Serve provides unlimited flexibility in layout to help you maximise your service.

Mobile servery

Each Flexi-Serve module is supplied on 4 locking castors as standard, meaning they can be positioned independently or quickly grouped together to suit changing servery layouts.

Fixed Servery

Using our simple jointing system, Flexi-Serve modules can be easily connected together to form a fixed counter top. Fixed servery layouts are easily installed without losing the flexibility to be changed at a later date. Height adjustable legs allow kick plates to be fitted to complete the look. Need to adapt your service? no problem, simply disconnect the Flexi-Serve modules, swap around, then reconnect.

Flexi-Serve Features

LED Illuminated gantry bulb

- Minimises power consumption

Full height or low level

- 900mm as standard or 800mm high – Perfect for primary and infant schools

Gantry options

- Heated or illuminated in self service, assisted service or island options

10mm thick UV Bonded glass

- More robust while providing a more modern retail focussed look

Heavier construction

- 700mm deep top with a 50mm downturn. Also matches standard table profiles for clean lines

Tray rail options

- Tubular or solid drop down versions

Accessory points

- Built-in fixing points allow accessories to be added after sale such as rear tray rail or side shelves

Removable fascia panels

- Easy replacement when damaged or to create a different look

Fixed counter option

- Join multiple units together to form a fixed counter

Choice of finishes

- Stainless steel, coated steel or wrapped and bespoke graphic options to suit your brand

Welded square tube steel chassis

- Extra strength and rigidity

Central cable exit

- Easily reaches left or right hand sockets

Legs & Kickplates

- Provide a finished look to fixed installations

4 Locking swivel castors

- Provides secure location on uneven floors

Kendal College Case Study

“I wanted something that was really smart and didn’t devalue what I do. Flexi-Serve delivered that and gives me everything I needed to be able to mirror my main dining room service and reduce pinch points, in one counter.”

Richard Axford, Head of Hospitality, Kendal College

Kendal College Case Study

Kendal College implement Flexi-Serve to smooth service delivery

Kendal College teaches students in higher education and introduces them into the catering world. Flexi-Serve is perfect as it’s professional grade equipment that’s flexible enough to be used as counters to serve the students in the dining hall one minute, or for the students to take off site and use as service counters for their external events. All the while maintaining the professional quality and great reputation of the Kendal College brand.

“Kendal College needed a flexible counter solution that they could use in different locations around the college. Plus as Flexi-Serve is all about flexibility, it’s portable enough so the students can take the units they need off site in the van for off site catering activity.”

Euan Hunter,
Business Development Manager,
Parry

Modular was the only way.

As a modular system, Flexi-Serve allowed Archers Catering Systems to specify the key components that Kendal College needed to make it’s perfect servery. With the addition of a few bespoke items, the servery was tailored to fit the space delivering the ideal solution.

Accessories

- Tubular Drop Down Tray Rails
- Self Service Heated Illuminated Gantry
- Assisted Service Glass
- Cable Ports
- Stainless Steel Fascia Panels

Grove Academy Case Study

“Flexi-Serve was the perfect fit for this project. We needed a modular system that was low cost but that still gave the look of a bespoke fixed counter. It delivered exactly the components we needed and maximised value added usage of the available space. We will be utilising Flexi-Serve again for future counter projects.”

Tony Butler, Managing Director, Whitco Ltd

Grove Academy Case Study

Flexi-Serve delivers a bespoke solution for the Grove Academy

As a purpose built school for 400 pupils, Grove Academy needed a kitchen servery solution that combined the benefits of an off the shelf modular system with the look and feel of a traditional fixed counter.

Modular was the only way.

By combing a selection of standard and bespoke items, Flexi-Serve allowed leading distributor Whitco to tailor the counter layout specifically to the service requirements and space available. Each module was supplied individually for fast installation on site using the Flexi-Serve joining system and finished with stainless steel kickplates to complete the look and allow electrical services to be run behind them.

“Grove Academy’s counter is a perfect showcase for the adaptability of the Flexi-Serve range. The mix of module types and sizes, quickly and securely joined with a seamless appearance demonstrates exactly the way Flexi-Serve was designed to be used.”

Euan Hunter,
Business Development Manager,
Parry

Flexi-Serve Efficiency Benefits

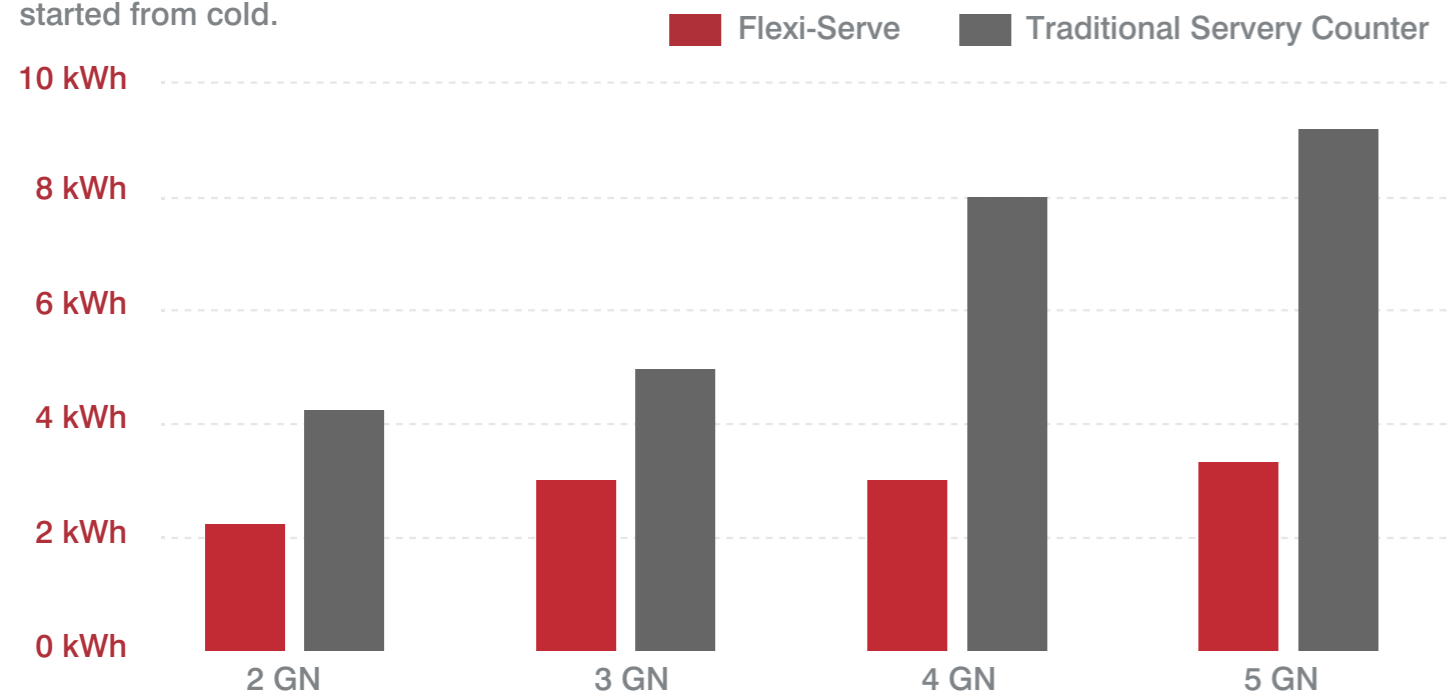

Improved Efficiency

The Flexi-Serve range has been designed to provide the optimum in efficient performance and economical power consumption.

Customers can purchase with the confidence of knowing that their new Flexi-Serve range is saving them money by reducing running costs and power consumption. With the added important benefit of reducing their environmental impact.

Model	Power Requirement
Ambient cupboard with plain top and LED illuminated gantry	From 0.01kW to 0.03kW
Ambient cupboard with chilled well and LED illuminated gantry	From 0.01kW to 0.03kW
Hot cupboard with plain top and LED illuminated gantry	From 1.7kW to 2.1kW
Hot cupboard with dry bain marie top and quartz heated gantry	From 2.2kW to 2.9kW
Hot cupboard with wet bain marie top and quartz heated gantry	From 3.1kW to 4.9kW
Hot cupboard with hot top and quartz heated gantry	From 2kW to 3kW
Refrigerated well with LED illuminated gantry	From 0.86kW to 0.93kW

The chart below shows the power consumption of Flexi-Serve units when compared to traditional servery counters of a similar size. The values below show the power consumption for 1 hour when started from cold.

WARRANTY POLICY

The manufacturer's warranty is only valid in the UK mainland. Northern Ireland, Western Isles, Inner Hebrides, and Islands are parts only warranty.

Please be aware that the warranty starts from the date of purchase from Parry and not the sale or installation date (Please note that should a unit be replaced through warranty; the warranty start date would remain unchanged).

All fabricated products are covered by a 1-year warranty only – this includes canopies and fan packs.

To be eligible for a 2-year warranty, products must be serviced at least once after the first 12 months of purchase.

All service calls will be carried out Monday to Friday between the access times provided by the customer.

Warranty is invalid if your equipment has not been installed in accordance with the manufacturer's instructions. Misuse, alteration, or unauthorised repairs of the equipment will also invalidate the warranty.

During the warranty period it is Parry's discretion whether to repair or replace the equipment.

The warranty only applies if the equipment has been used in a professional manner following the manufacturer's instructions and maintenance guidelines.

The warranty covers defects in the material and component failure only. We are not liable for trading loss, loss of perishable items, water damage or loss due to injury or fire damage.

Please have your model number ready before placing a warranty call.

All warranty requests must be submitted to warranty@parry.co.uk.

Non-warranty and aborted calls are chargeable with a minimum charge of £120.

Failure to pay warranty charges will result in your warranty being placed on hold until any outstanding invoices are settled. Any issues regarding the raised charges should be put in writing to our warranty department within 48 hours of invoice date for further investigation.

We reserve the right to charge for replacement products where the original is proven to be non-faulty.

NOT COVERED UNDER WARRANTY

Fault due to incorrect installation, poor maintenance or equipment abuse.

Equipment not maintained, clean and fit for use, or covered in food debris.

Resetting of equipment or circuit breakers.

Faulty electrics – e.g. a customer's plug socket, plug wiring, junction box fault, wrong fuse.

Products must be serviced after first 12 months to be eligible for the 2-year warranty.

Foil used on racks, blockages and lime scale issues.

Consumable items such as lamp fittings, bulbs and door seals.

Accidental damage (including glass and ceramic tops).

Excessive carbon build-up on griddle plates or overuse of lava rock on charrills (recommended use by Parry is no more than 2kg).

Appliances that have been installed in mobile trailers are covered by parts only warranty for 24 months.

Extraction canopies are sold with parts only warranty on the fans and speed controllers for 12 months. If parts are found to be faulty through lack of cleaning of the extraction canopy, they will be chargeable. The equipment should be installed by a competent person who is aware of the design, performance, and the capacity of the ventilation system so they can ensure adequate ventilation.

All of the above points are not covered by warranty and any costs incurred, because of the above, will be forwarded to the parties responsible for placing the call.

Please see our website for full terms and conditions.

RETURNS POLICY

RETURNS PROCESS

As per section 11 of our Terms and Conditions, all items that are returned MUST be authorised prior by calling our Sales office. You will be provided with a returns authorisation number which will need to be recorded on the outside of the return package. Any goods returned without the visible returns number will not be accepted and will be returned with your courier. Please note: Flexi-Serve units and canopies are non-returnable. Equipment returns are subject to a 25% or £75 charge, whichever is the greatest. Spares returns are subject to a 25% or £30 charge, whichever is the greatest.

GOODS ORDERED IN ERROR

Please note we will not accept goods back that have been purchased more than 48hrs from the date of invoice. The customer will be required to return the goods at their own cost,

Please see our website for full terms and conditions.

directly to Parry in A1 condition and in the original packaging. The goods will be subject to a handling charge of 25% or £75, whichever is the greatest. If however the goods arrive back to us damaged then a credit will not be raised, the goods will remain the property of the customer and will need to be collected from Parry at the customer's expense.

GOODS DAMAGED IN TRANSIT

All claims for damages must be reported within 24 hours of delivery to enable us to make a claim, any reported after this time cannot be replaced so please check the POD if necessary.

FAULTY GOODS

Customers should call our Sales team on **01332 875544** at the time an item is discovered to be faulty to speak to our warranty team.
