

Daily Cleaning Procedure

G3532 Grill

IMPORTANT! FOR GUIDANCE ONLY PLEASE REFER TO YOUR OWN HEALTH AND SAFETY POLICY FOR SITE SPECIFIC OPERATIONAL AND PPE REQUIREMENTS

Suggested PPE

Apron
Heat resistant gloves

Equipment

Cloth
All purpose cleaner

Switch off grill and allow to cool before cleaning.

Step 1 - Remove aluminium brander (1), upper drip tray (2), wire shelf (3) and base drip tray (4) and wash in hot soapy water. A non abrasive scourer may be used to remove stubborn stains. Leave to soak if necessary. Rinse and dry.

Step 2 - Using all purpose cleaner and a cloth clean the inside and outside surfaces of the grill.

Step 3 - Replace base drip tray, wire shelf, upper drip tray and aluminium brander.

NOTES:

- Do not clean or dislodge burner plaques.
- Clean up spillages immediately.
