Maxiglass

Professional refrigeration equipment for the hospitality trade

Bar design begins with Gamko

Maxiglass

'Gamko' dependable for over 50 years!

Gamko

For over 50 years, we have supplied the leisure industry with high quality solutions for beverage refrigeration requirements. Leading the way in both innovation and development Gamko now has arguably the widest range of back bar and front bar refrigerated and none refrigerated appliances in the industry. All of our appliances meet the requirements of class N, which means that our refrigerated coolers will function efficiently at the optimum in temperatures up to 32°C.

Maxiglass Bottle Coolers

- Large bottle capacity maximises product display and means less downtime when re-stocking
- Large finned evaporator delivers cold drinks display and improves heat transfer thus saving energy
- Clever slide out refrigeration design allows for easy servicing
- Low maintenance condenser – plug and play refrigeration counter without the maintenance
- Light(s) and door lock(s) as standard
