

Induction Hob

hallco

Experience the speed and efficiency of induction cooking anywhere with the compact MC30L4B countertop hob.

Unbeknown to many, induction hobs actually cook faster than their gas counterparts and are very economical too. This type of cooking is becoming more popular, especially for front of house. Extremely simple and very safe to use, our counter top 'plug and play' model is built to withstand the demands of any busy catering operation. Featuring high quality German Schott ceramic glass and electronic controls for greater cooking precision, this product is great value for money in comparison to others in their class.

At a mere 326 x 386mm, simply plug the MC30L4B in wherever an additional hob is required – back or front of house. Wipe-clean, touchpad controls and auto-pan detection make it simple to use and by creating heat only where required, directly in the pan, induction cooking is quicker and more energy efficient too!

This trusted kitchen essential is backed up by a 1 Year Full Warranty.
