High volume pressure fryers

MODEL **PFG-691** gas

PFG-691 high volume 8-head gas pressure fryer

General Information

Henny Penny first introduced commercial pressure frying to the foodservice industry 50 years ago. Today, Henny Penny pressure fryers continue to lead the industry in performance, durability and innovation.

Frying under pressure enables lower cooking temperatures and faster cooking times. Pressure also helps seal in the food's natural juices and reduce absorption of frying oil into product. Results of pressure frying generally produce a product with less fat and more original flavor than other methods of frying.

The Henny Penny PFG-691 is the only gas pressure fryer on the market that cooks up to 8 head of chicken or 24 lb (11 kg) of food in a single load. A high volume fryer can offer significant savings in time, labor, frying oil, energy use and maintenance over an equivalent combination of smaller competitive fryers.

Henny Penny high-volume pressure fryers incorporate several beneficial design features, including rectangular fry pot, cold-zone, counter-balanced lid lift and lock, raised edge on fryer deck and more.

The PFG-691 features a high-efficiency burner system with solid-state ignition. Average temperature of exhaust gases are among the lowest in the industry. **COMPUTRON™ 8000** control provides fully automatic, programmable operation, as well as energy-saving, filtration and load management features.

Built-in filtration system filters and returns hot oil in minutes with no extra pumps or pans and no handling of hot oil.

Standard Features

- Heavy-duty stainless steel rectangular fry pot with 7-year warranty.
- Fully insulated fry pot.
- High-efficiency burners.
- Patented draft-induced heat transfer technology.
- Patented counter-balanced lid lift and lock system for easy loading and unloading.
- Fry pot protection system.
- Built-in filtration.
- Raised edge on deck reduces spills.
- 4 heavy-duty casters, 2 locking.

- **COMPUTRON™ 8000** control
 - 10 programmable cook cycles
 - Melt mode
 - Idle mode
 - Load compensation
 - Proportional control
 - Optional filter prompt and customizable filter tracking
 - Clean-out mode
 - 16-character digital display with multiple language settings

Accessories shipped with unit

- Loading carrier
- Basket configuration, choose one:
 - Full basket—4 flat wire baskets, 1 wire rack cover, rack handle
 - Half-size rack—4 wire racks, 1 wire rack cover, rack handle
- Stirrer and drain clean-out rod
- **Max** shortening filtration system and 2 PHT filter envelopes.

Accessories and options available separately

- Direct Connect shortening disposal
- Shortening shuttle
- Filter rinse hose

High volume pressure fryers

MODEL **PFG-691** gas

Dimensions

Height: 61 in. (1549 mm)
 Width: 25 1/2 in. (648 mm)
 Depth: 41 7/8 in. (1062 mm)

Required clearances

Top: 10 in. (254 mm) lid up for cleaning
 Sides: 6 in. (152 mm) air flow
 Back: 6 in. (152 mm) air flow
 Front: 38 in. (965 mm) filter pan removal

Crated dimensions

Length: 46 in. (1168 mm)
 Depth: 30 in. (762 mm)
 Height: 70 in. (1778 mm)
 Volume: 56 cu. ft. (1.58 m³)

Net weight N/A

Crated weight 935 lbs. (425 kg)

Pressure

Operating pressure: 12 psi.
 Safety valve setting: 14.5 psi.

Heat

Natural or liquid petroleum gas
 4 burners
 3/4 in. connection
 100,000 BTU/hr (29 kW)

Capacity

Product: 24 lb (10.9 kg) 8 head chicken
 Oil: 64 qt or 130 lb (61 l or 59 kg)

Electrical

Volts	Phase	Cycle/Hz	Watts	Amps	Wire
100	1	50/60	1200	12.0	2+G
120	1	60	1200	10.0	2+G
220-240	1	50/60	1200	6.0	2+G
230	1	50	1200	2.5	1NG

Optional power cord and plug can be supplied for 120V units, only.

Plug type: 2-pole, 3-wire NEMA 5-15 P

Laboratory certifications

Bidding Specifications

- Provide Henny Penny model PFG-691 high volume gas pressure fryer, 24 lb (10.9 kg) 8-head chicken capacity per load, with **COMPUTRON™ 8000** control and built-in filtration system.
- Fry pot is heavy duty stainless steel.
- Unit shall incorporate high-efficiency heat-exchange design for extremely fast recovery.
- Counter-balanced lid lift system enables easy loading and unloading. Lid remains in locked position until pressure reaches 1 psi.
- Gas burners encircle pot part-way up the side, and are not located below pot. This design produces a "cold zone" that extends suitable oil life.
- Unit's controller provides for programmable or manual operation with press-key controls and LED digital display. Control offers idle and melt modes, load compensation, filtration tracking and 7-day history.
- Unit shall include 4 heavy-duty casters, 2 locking.
- Unit ships with stainless steel **Max** filtration screen and 2 PHT filter envelopes, loading rack, basket handles and choice of fry baskets or wire racks.

Continuing product improvement may subject specifications to change without notice.
