

RLBM1010A Breast Milk Refrigerator

The Labcold Breast Milk refrigerator has been specifically designed to store human milk in optimum conditions. With six adjustable shelves and an interior fan for even temperature distribution, this fridge is fitted with a lock for extra security.

The simple to use four button controller displays the internal temperature of the fridge, but it also shows minimum and maximum temperatures which can be displayed at the touch of a button. It also alarms if the internal temperature drops below 0°C or rises above 5°C. The Breast Milk fridge is also fitted with a door open alarm and, if batteries are fitted, a mains failure alarm.

We are confident that this breast milk refrigerator will provide you with many years of fault free service. However, for extra peace of mind your RLBM1010A comes complete with a FREE 1 year parts and labour warranty!*

The IntelliCold® controller automatically stores temperature data and refrigerator performance. A specifically encoded SD card is available as an optional extra for data transfer so these records can be stored to your PC. Why not ask for details when you place your order?

Part Number	RLBM1010A
Capacity (Litres)	340
Style	Free Standing
Exterior Dimensions (HxWxD)	1500 x 600 x 700mm
Interior Dimensions (HxWxD)	1358 x 480 x 500mm
Temperature Range	0°C to 5°C
Operating Temperature	+3°C
Interior Construction	Powder Coated Steel
Exterior Construction	Powder Coated Steel
Shelves	6
24/7 Automatic Data Recording	✓
Door Style	Solid
Door Hinging	Right (can be reversed at time of manufacture)
