

LABCOLD™

medical & scientific refrigeration

RLWF0510 Under Counter Ward Refrigerator

Designed for the secure storage of food and beverages this compact ward refrigerator features an internal fan for even temperature distribution, eliminating 'hot' and 'cold' spots, a bright energy saving LED internal light and a door lock to prevent unauthorised access.

Digital controller with 24/7 auto data recording.
SD card for data transference optional extra

The simple to use four button controller is clearly labelled and allows minimum/maximum temperatures to be displayed at the touch of a button. It also shows clearly which alarm is active and why, making remedial action easy. A clear LED display shows the internal temperature of the fridge to one decimal place.

There are 3 full size adjustable shelves so it's easy to make sure all food has adequate air flow and can fit in the fridge. It also comes fitted with a door handle, minimising wear and tear on the gasket when opening and providing added convenience.

As you would expect this is a quality refrigerator from Labcold and designed specifically for food storage and has been engineered to be robust enough to easily cope with life on a busy ward, but for extra peace of mind your Labcold Ward Refrigerator comes complete with a comprehensive one year parts and labour warranty*.

Part Number	RLWF0510
Capacity (Litres)	150
Style	Under Counter
Exterior Dimensions (HxWxD)	820 x 600 x 610mm
Interior Dimensions (HxWxD)	690 x 510 x 410mm
Temperature Range	+2°C to +8°C
Operating Temperature	+5°C
Interior Construction	Powder Coated Steel
Exterior Construction	Powder Coated Steel
Shelves	3
Net Weight (kg)	38
Door Style	Solid
