medical & scientific refrigeration

## RLWF1010A Freestanding Ward Refrigerator

Designed for the secure storage of food and beverages this compact ward refrigerator features an internal fan for even temperature distribution, eliminating 'hot' and 'cold' spots, a bright energy saving LED internal light and a door lock to prevent unauthorised access.

Digital controller with 24/7 auto data recording.  
SD card for data transference optional extra

The simple to use four button controller is clearly labelled and allows minimum/maximum temperatures to be displayed at the touch of a button. It also shows clearly which alarm is active and why, making remedial action easy. A clear LED display shows the internal temperature of the fridge to one decimal place.

There are 6 full size adjustable shelves so it's easy to make sure all food has adequate air flow and can fit in the fridge. It also comes fitted with a door handle, minimising wear and tear on the gasket when opening and providing added convenience.

As you would expect this is a quality refrigerator from Labcold and designed specifically for food storage and has been engineered to be robust enough to easily cope with life on a busy ward, but for extra peace of mind your Labcold Ward Refrigerator comes complete with a comprehensive one years parts and labour warranty\*.
