LABCOLD™
medical & scientific refrigeration

Temperature Loggers

When you need to be certain that temperature sensitive pharmaceuticals and biologicals have not been exposed to temperatures outside the acceptable range the convenient answer is a portable temperature logger.

Designed to be simple to use, these loggers can be placed amongst the load so you can prove that items are safe to use and can produce a record of the temperature experienced which can either be stored on your computer or printed off as a hard copy.

Labcold USB Data Logger
This self contained, compact data logger is ideal for placing in a fridge or transport carrier, yet despite it's compact size has the capacity to record up to 32,000 readings. Also available with a calibration certificate, this easy to use logger has free to use software which can be viewed in Adobe Acrobat Reader.

Labcold Transport and Temperature Logger
These loggers record time, date and precise temperature for later analysis. Sealed in a hygienic plastic casing, this logger can simply be located amongst product and has a reassuring green light to show normal operation and a red warning light to alert the user to temperature deviations.
The Labcold Transport Temperature logger requires a reader and software to program logging intervals and alarm thresholds. This software also allows the user to download the data to a Windows enabled PC. Data can then be displayed graphically.

Labcold loggers are designed for ease of operation and produce clear, easily understandable results. If you want to see for yourself how a logger can help you maintain cold chain compliance, why not contact your local representative for more information?

Part Number	RMBL51TA	RMBL1510
Temperature Range	-30ºC to +70ºC	-30ºC to +60ºC
Dimensions (HxWxD)	131 x 24mm dia	117 x 57 x 10mm
Weight	60g	54g
Construction	Polycarbonate/ABS	ABS
Battery life	1 year at 25ºC	4 years
Accuracy	+/- 0.5ºC	+/- 0.5ºC
Connection	USB	USB/RS232
Maximum data points	32,000	24,576
Resolution	0.1ºc	0.02ºc
Reader required	✗	✓
Software required	✓	✓
Optional Calibration certificate	✓ RMBL51TA/CAL	✓

Easy to use USB data logger **RMBL51TA**

Graphical data output

Transport logger **RMBL1510**
