

SPH200

SIMAG

STAINLESS STEEL INTEGRAL ICE FLAKER

Description

The SPH range of integral ice flakers from Simag are the addition that every bar and food establishment is crying out for. Built with high grade 441 stainless steel and food safe plastic interior you can ensure your unit looks the part and with flaked ice with only 25% residual water content it performs just as well too!

It's front vented air cooled design makes it the perfect fit for building in to a current bar set up while still allowing access to components for maintenance and cleaning.

Features

- High grade 441 stainless steel exterior
- Food safe plastic interior
- Front vented - can be built in
- Electronic controls
- Produces flaked ice
- Air cooled
- Easily accessible components
