

Integral Ice Flakers - SPR Range

FEATURES

- High grade 441 stainless steel (scotch brite) exterior

- Food safe plastic interior

- Front vented - can be built in

- Electronic controls

- Produces flaked ice

- Air cooled (water cooled available - POA)

- Easily accessible components

- Refrigerant R134a (SPR80, 120), R404a (SPR200)

- 13amp supply

Residual water content 25%

It is most important to have a water filter in line with your Ice machine. Without a water filter as ice is produced the remaining cold water in the machine becomes more and more concentrated with calcium etc. This calcium deposits on the components inside the ice maker, putting a coating on the evaporator and causing pumps to fail. More electricity is required to produce ice when the evaporator is coated with scale and eventually an expensive service call will be required, which is chargeable.

Remember, Fit a water filter in line with your ice machine, run a cleaning solution through your machine regularly, and clean the condenser regularly. Following these simple procedures will give your ice machine a long and economical life.

SPR80

SPR200

MODEL	PRODUCTION / 24HRS (kg)	STORAGE (kg)	EXT. DIMENSIONS (H x W x D mm)	POWER CONSUMPTION	DECIBELS	WEIGHT (kg)	RRP
SPR80	70	25	880 x 529 x 626	340W	60dBA	60	
SPR120	120	55	867 x 920 x 594	500W	60dBA	81	
SPR200	200	55	867 x 920 x 594	790W	66dBA	82
