

Serve Over Counter for Patisserie

Tejo Range

Product Description

A patisserie cabinet with a refrigerated display deck and first shelf plus 2 additional ambient shelves. The display deck is a drawer system, so you slide the deck out from the rear for loading and serving - this saves you having to reach deep into the cabinet and meaning you disturb other products on display. Suitable for cakes, desserts and pastries. Intelligent airflow ensures even cooling of the display deck which means a fan is not required for cooling which can dry out product on display. Hinged glass to the front allows for easy cleaning.

Features and Benefits

- Fully automatic
- Static cooling
- Adjustable feet
- Interior light with switch
- Digital controller and temperature display
- Hinged glass for easy cleaning
- Deck and shelf 1 refrigerated, shelf 2 and 3 ambient
